S3D medimagic

VINFORMAX

The Magic of Medical Education.

A Paradigm shift in Digital Medical Education.

VINFORMAX is a company based out of London and has its flagship product S3D MEDIMAGIC which focusses on bringing in cutting edge digital technologies for medical education.

S3D MEDIMAGIC is first in the world to offer over hundreds of hours of stereoscopic digital content mapped to a global medical curriculum.

S3D MEDIMAGIC is the best tutor aid for modern day problem – based teaching. It encompasses pre & para clinical subjects. It provides students with an unprecedented learning experience by projecting stunning visuals of complex anatomical structures and physiological process in stereoscopic 3D in a way that facilitates depth perception and leaves an everlasting impact on long term memory.
